

## NEW HOME QUESTIONNAIRE

The purpose of this questionnaire is to provide us with your ideas for your new home. We realize you may not be able to answer all of the questions and that's alright. When determining what size you want a room to be, one of the best ways to decide is to measure a room you are familiar with and decide if that size is appropriate or needs to be larger or smaller. If this is something you don't want to do, we can determine room sizes based on the square footage of the house you want to build and the number of different types of rooms you want. Don't hesitate to contact our office should you have any questions. (530) 596-4233!
